for Professional Painting Contractors

ST Max II

ST Max

ST Max™ II Advanced Features

**DC brushless motor**

**DC**  
Operates with up to  
90 meters extension cord

**TEFC**  
Totally enclosed so no  
debris or dust can come  
in contact with the motor.  
Fan Cooled for long working  
time and long motor life.

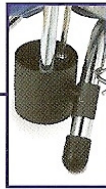

**Brushless**  
No brushes to replace.  
Lower maintenance costs.

**Compact design**  
Easy to handle

**Light**  
Almost 4 kgs less  
than previous version

**Offset Handle  
with comfort grip**  
Unit is balanced away from  
your body for easy transport.

**Big Cup**  
Secure location.  
Prevents paint dripping after use.

**Heavy Duty Tube Clip  
Splash Guard**

**Heavy Duty Legs/Cart**  
Designed for rough handling.

**HandTight™ Cap**  
Removes without tools for easy daily maintenance.

**Easy Out™ Filter**  
Filters paint from the inside out.  
Filter screen will not pack out in housing.

Clean:  
Filter screen is removed with the cap.

Open end screens:  
Clean easy and quickly.

**Swivelling Suction**  
Vertical immersion:  
Designed to remain vertical inside the  
bucket. No manipulation.  
Paint pumps all the way to the bottom of  
the bucket.

HandTight™ connection:  
Easy access to the inlet ball for clearing.  
On the job, without tools and in seconds.

**Endurance™ Pump**  
Proven performance.

Quick knock-off:  
Pump removal on the job with  
only a wrench and a hammer.

Wing nut:  
QuickAccess™ to inlet ball for  
clearing using a hammer.

Packing nut:  
Allows for one tightening  
when packings start leaking.  
Finish the job instead of having  
to stop for repair. No downtime.
